Stocks & Finishes

- **Stock Options** – The 4x4 line includes three uniquely styled stock options: “Classic,” “Skeletonized,” and “Sculpted” configurations. See product description captions for details.
- **Variety of Finishes** – Choices include Walnut, Laminate, and Synthetic Stocks in Matte Black and Laminate pattern.

Lightning Bolt Action™ (LBA™) Adjustable Trigger System

Standard on all 4x4 models. With its unique skeletonized lightning bolt trigger blade, the LBA™ trigger system (patent pending) offers hunters the best in form and function:

- **User-Adjustable Trigger:** Trigger pull down to 2 lbs.
- **Creep-Free Trigger Pull:** Design of sear engagement offers a truly creep-free trigger.
- **Skeletonized Lightning Bolt Trigger Blade:** Blocks the sear from releasing the striker unless the blade is depressed.
- **Military-Spec Durability:** Trigger assembly is machined from aircraft-grade aluminum, then hard-coat anodized to military spec to prevent corrosion and minimize wear over time.
- **Selection:** The LBA™ Trigger System is found on every 4x4 Bolt-Action, over 100 models in all. Also found on 100ATR® models (see pages C4 and C5) and 100ATR® Night Train™ models (see page C28).

LBA trigger adjusts with a standard screwdriver

ALWAYS WEAR PROPER EAR AND EYE PROTECTION WHILE SHOOTING.

NEW for 2010 Fluted Barrels with Muzzlebrakes

- » **Stylish, Functional and Value-Added Feature** – Most 4x4 rifles now come standard with fluted barrels with an integrated, ported muzzlebrake. This stylish, functional accent typically requires custom machining and the need for hunters to send their barrels out to be worked on, but 4x4 owners can now enjoy this feature right out-of-the-box.
- » Fluting reduces surface heat on the barrel while the ported muzzlebrake reduces felt recoil and muzzle jump, resulting in quick second shot recovery.

DO NOT TOUCH THE TRIGGER UNTIL YOU ARE ON TARGET AND HAVE DECIDED TO FIRE.

NEW for 2010 Fluted Barrels

- » **Premium Styling at An Affordable Price** – 100ATR rifles now come with the premium look and feel of fluted barrels. This stylish, functional accent typically requires custom machining and the need for hunters to send their barrels out to be worked on, but 100ATR owners can now enjoy this feature right out-of-the-box. Fluting reduces overall barrel surface temperature, dissipating heat over the additional surface area.
- » **Marinecote™ Models** – Mossberg's proprietary all-weather Marinecote™ finish provides the ultimate protection in extreme weather, especially near tough marine environments.

100ATR® Short-Action Scoped Combo

NEW 

NEW 

Recoil Reduction System

- » All 835 synthetic stock models (excluding Tactical Turkey models) now come equipped with an insert for use with standard 4" (.875" diameter) recoil suppressor tubes. This system is designed to reduce recoil acceleration and muzzle jump, and minimize gun movement during firing. Solid core or mercury-filled tubes can be used (suppressor tubes not included). For more information on this new system, visit our website at www.mossberg.com.

NEW for 2010 Lightning Pump Action™ (LPA™) Adjustable Trigger System

Mossberg's revolutionary LPA Trigger (patent pending) is the first of its kind for pump-action shotguns, providing hunters rifle-like trigger pull. Available on select 835 Ulti-Mag Turkey, Slugster and Combo models. With its unique skeletonized lightning bolt trigger blade, the LPA™ trigger offers hunters the best in form and function:

- » **User-Adjustable Trigger:** Trigger pull from 7 lbs. to under 3 lbs. (adjusts with an Allen wrench).
- » **Creep-Free Trigger Pull:** Design of sear engagement offers a crisp, creep-free trigger.
- » **Skeletonized Lightning Bolt Trigger Blade:** Prevents the hammer from rotating and hitting the firing pin unless the blade is completely depressed.
- » **Selection:** The LPA™ Trigger System is also found on select 535 ATS™ and 500® pump-action shotgun models (see pages C10, C12, and C30).

STORE FIREARMS IN A SECURE AREA, INACCESSIBLE TO CHILDREN.

Overbored/Ported Barrels

- » **Barrel Overboring** – Every smoothbore 835 Ulti-Mag shotgun barrel is overbored to 10 gauge bore dimensions. Unlike other “backbored” brands, this unique design spans the entire length of the barrel, providing a gas “cushion” for the shot charge. Not only does this reduce felt recoil, it more importantly reduces pellet deformation and internal friction, resulting in the exceptionally uniform, dense shot patterns for which Mossberg overbored shotguns are known.
- » **Barrel Porting** – Every 835 Ulti-Mag shotgun barrel is factory ported (excluding 20” and fluted barrels), providing shooters the benefit of reduced felt recoil and muzzle jump — resulting in quicker second shot recovery.

SAFETY AND SAFE FIREARMS HANDLING IS EVERYONE'S RESPONSIBILITY.

Fully Rifled Bore

» Mossberg has been a pioneer in developing fully-rifled slug barrels with their Slugster® models. When used in conjunction with today's high-tech, sabot slug ammunition, these barrels deliver unprecedented down-range accuracy. And now, with many jurisdictions promoting deer hunting with shotguns, the need for a superior slug shooting alternative is greater than ever.

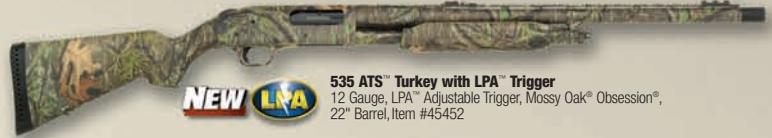

» **Full Rifling Makes the Difference** – At the heart of every Slugster barrel are deep lands and grooves running the entire length of the barrel (see illustration below), creating the spin stabilization that gives today's sabot slug ammunition its improved rifle-like accuracy at 100 yards or more.

NEW for 2010 Lightning Pump Action™ (LPA™) Adjustable Trigger System

Mossberg's revolutionary LPA Trigger (patent pending) is the first of its kind for pump-action shotguns, providing hunters rifle-like trigger pull. Available on select 500[®] Turkey, Slugster and Combo models. With its unique skeletonized lightning bolt trigger blade, the LPA™ trigger offers hunters the best in form and function:

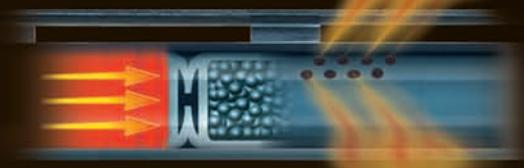

- » **User-Adjustable Trigger:** Trigger pull from 7 lbs. to under 3 lbs. (adjusts with an Allen wrench)
- » **Creep-Free Trigger Pull:** Design of sear engagement offers a crisp, creep-free trigger
- » **Skeletonized Lightning Bolt Trigger Blade:** Prevents the hammer from rotating and hitting the firing pin unless the blade is completely depressed
- » **Selection:** The LPA™ Trigger System is also found on select 835[®] Ulti-Mag[®] and 535 ATS™ pump-action shotgun models (see pages C8, C10, and C30).

STORE YOUR FIREARMS AND AMMUNITION SEPARATELY.

Ported Barrels/Recoil Reduction

» Mossberg offers ported barrels on select 12 and 20 gauge models, and within each game discipline. These field, turkey, waterfowl and Slugster® barrels come factory-ported with multiple rows of vents near the muzzle. These ports provide distinct advantages for the shooter: lower felt recoil and reduced muzzle jump — resulting in faster recovery for followup shots.

» With models available in .410 bore, 20 gauge and 12 gauge, the 500® pump-action is known for its diverse product lineup, its reputation for rugged dependability, and for offering hunters exceptional value at a reasonable cost.

500® with ISB

» **Remove and Remount With Ease –**

Seven 500® models are available with integral, barrel-mounted cantilever scope mounts in both 12 and 20 gauge. With this system, the barrel and scope become one integral unit that can be removed and remounted without re-zeroing the scope.

» **Accessory Barrel/Scope Combo –** Integral Scope Bases are also offered as an accessory barrel/scope combination, paired with a laser-bore sighted 3-9x40mm variable scope — removing the guesswork from setting up a scoped shotgun.

» **Drilled & Tapped –** All 12 and 20 gauge 500® models feature a drilled and tapped receiver, factory-ready for use with Picatinny rail, scope bases, or optics installation.

Reduced length of pull for enhanced comfort and control.

Fully Rearward Fully Frontward

EZ-Reach™ forearm (12 and 20 gauge only) is conveniently located closer to the shooter for easier cycling operation.

Each 12 and 20 gauge Bantam model includes a factory discount coupon good toward a standard sized replacement stock.

Every Mossberg firearm includes a free gun lock.

BE SURE OF YOUR TARGET AND WHAT IS BEYOND IT.

Designed with Younger or Smaller Shooters in Mind

» Mossberg's Super Bantam adjustable stock is an innovative solution to the changing needs of growing shooters. Straight out of the box, the Super Bantam has a 12" LOP (10¹/₄" for 510 Minis). Later, when the shooter has outgrown the smaller dimension, the included 1" insert/recoil pad can be swapped in, extending the LOP out an extra inch. This comes from Mossberg's dedication to the youth market, and is another example of how Mossberg delivers "more gun for the money."

» At Mossberg, we know that a proper fit is extremely important to overall safety and comfort of shooters in the field. That's why we've created 18 models in .410 bore, 20 and 12 gauge, and in a diverse lineup of configurations — so that the foundation can be laid early on for a lifetime of enjoyment in hunting and the shooting sports.

As demonstrated here... if you're looking for a compact, shotgun, or trying to fit a petite or younger shooter — your search is over!

NEW for 2010 510 Mini[™] Super Bantam[™]

» Mossberg is again making big news in small shotguns with the introduction of two 510 Mini Super Bantam shotguns — the smallest, most compact pump-action designs in Mossberg's history. The 510 Mini, measuring in at just over 34" for both the .410 and 20 gauge models and tipping the scales at just five pounds — is a great choice for first-time shooters, or anyone who wants a lightweight shotgun.

935 Magnum™ Autoloader

Built from the ground up to handle the hardest-hitting magnum waterfowl and turkey loads — Mossberg created the 935 Magnum with hardcore hunters in mind. Our reputation as the leader in magnum shotgunning and its performance in the woods and in the blind has helped make the 935 the best-selling 3 1/2" autoloader ever.

Stock Drop Spacer System

- » Synthetic stock 935 Magnum shotguns feature a stock drop spacer system that provides a custom-type fit to every shooter. Commonly found on guns costing much more, these specially designed spacers allow quick adjustment of the vertical angle of the stock for precise eye/rib alignment. The result? Improved down-range accuracy and more comfortable shooting posture.

935 Magnum™ Autoloaders

- » **Hardcore Versatility** – Developed for use with 12 gauge 3" and 3 1/2" factory loaded shotshells... from high-brass small game loads to the most punishing non-toxic and lead 3 1/2" magnum rounds.
- » **Drilled & Tapped** – All 935™ models feature a drilled and tapped receiver, factory-ready for quick and easy scope base and optics installation.
- » **Choke Tubes** – Interchangeable Accu-Mag™ choke tube set and wrench (Improved Cylinder, Modified, Full) are included with all waterfowl models.
- » **Turkey Chokes** – Premium ported X-Factor™ (shown at right) or extended Ulti-Full™ chokes on turkey models.

TREAT EVERY FIREARM AS IF IT WERE LOADED.

Overbored Barrels

» **Barrel Overboring** – Every 935 Turkey & Waterfowl shotgun barrel is overbored to 10 gauge bore dimensions. Unlike other “backbored” brands, this unique design spans the entire length of the barrel, providing a gas “cushion” for the shot charge. Not only does this reduce felt recoil, it more importantly reduces pellet deformation and internal friction, resulting in the exceptionally uniform, dense shot patterns for which Mossberg overbored shotguns are known.

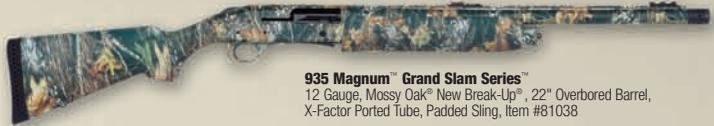

- » **Fiber Optic Sights** – Fiber optic front bead sight standard on all waterfowl models; fully adjustable front and rear fiber optic sights standard on all turkey models. Fiber optic sights improve visibility and assist target acquisition in extreme low-light hunting situations.
- » **Quick-Empty Magazine Button** – Easy-to-operate quick-empty magazine button releases contents of the magazine for quick, convenient unloading.
- » **Gas System** – Dual gas-vent system vents excess gases to aid in recoil reduction and eliminate stress on operating components.
- » **Uni-Line Stock & Receiver** – The soft, angled edge of the 935 receiver marries with the stock perfectly, providing instinctive eye/rib alignment for instant target acquisition.
- » **Every 935™** comes factory assembled and includes a free gun lock and 2-year limited warranty.

Stock Drop Spacer System

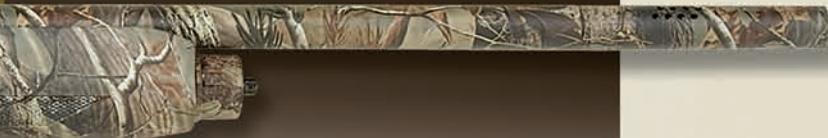

- » 930 Autoloaders with synthetic stocks feature a stock drop spacer system that provides a custom-type fit to every shooter. Commonly found on guns costing much more, these specially designed spacers allow quick adjustment of the vertical angle of the stock for precise eye/rib alignment. The result? Improved down-range accuracy and more comfortable shooting posture.

NEVER USE ALCOHOL OR DRUGS BEFORE OR WHILE SHOOTING.

Slugster® Models with Monte Carlo Stocks/ISB Barrels

» Three 930 autoloader models are offered with a combination of Monte Carlo stock with built-in cheekrest and barrel equipped with a raised integral scope base (ISB). The ISB accepts any Picatinny-style optics, and remains attached to the barrel to reduce the need for re-sighting in your scope when your hunting needs and barrel change. This combination was specifically designed to provide Slugster shooters with an elevated comb height — perfect for optimal eye/scope alignment.

▶ **Dual Locking Lugs** — robust lugs provide strong, secure lock-up of barrels to the receiver for maximum reliability, longevity.

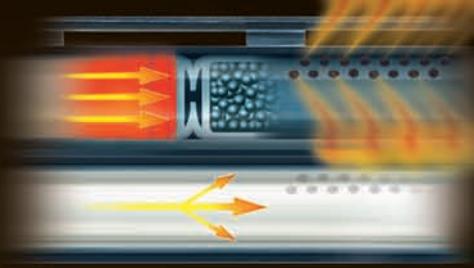

▶ **Game Scene Engraving** — As shown at left, Over-and-Under Silver Reserve Field models are tastefully engraved with gold-tone filled game scenes on both sides of the receiver.

ALWAYS USE THE PROPER AMMUNITION FOR YOUR FIREARM.

Reserve Series Barrels

» **Ported Barrels** – Reserve Series Sporting barrels are factory-ported with multiple rows of vents near the muzzle. These ports provide two distinct advantages for the shooter: the comfort of lower felt recoil and reduced muzzle jump, resulting in faster recovery of your sight picture for followup shots.

» **Chrome-Plated Chambers and Bores** – a feature on all Reserve models, they maximize corrosion resistance, and at the same time minimize shot/wad friction while traveling the length of the bore.

» **Safety and Barrel Selector** – All Reserve™ O/Us and SxSs are equipped with an ambidextrous thumb-operated safety and an integrated barrel selector, located on the top tang for convenient, easy-to-see operation.

With an eye to innovation, Mossberg is partnering with companies like TASER International to develop exclusive products like the X12 shotgun, a less-lethal-only variant of the Mossberg 500®. The X12 was designed to fire the fully self-contained XREP (eXtended Range Electronic Projectile) shell, while its specially-designed bolt head prevents the accidental chambering or firing of standard ammunition (patent pending).

ACCESSORY BARRELS & BARREL/SCOPE COMBOS

Extend your hunting season with a Mossberg accessory barrel. Offered in a variety of popular Slug, Turkey, Security and All-Purpose configurations (chart, Page C34). Choose different barrel lengths, finishes and sight options — including three specialty models for 870 owners — Rolling Thunder™, Road Blocker™ and Standoff (insets, above).

Looking to take the guesswork out of fitting optics for your shotgun? Mossberg's high-value Accessory Barrel/Scope Combos (insets, top left) are available for five pump-action models. Other accessory barrel products include heat shields available in three finishes: Blued, Parkerized, or Marinecote™ (inset, center left).

For more information on other accessory products, see pages C36 and C37 — or visit our online web store at www.Mossberg.com.

X-FACTOR PORTED CHOKE TUBES

Combining precision-engineered choke constrictions with two rows of specially angled ports, the X-FACTOR choke tubes provide the dedicated waterfowl and turkey hunter an added edge in the field.

ACCU-CHOKE & ACCU-MAG CHOKE TUBES

For consistent pattern performance with a variety of loads, look for Accu-Choke and Accu-Mag choke tubes in a variety of gauges and constrictions for hunting and recreational shooting.

OFFICIAL MOSSBERG LICENSED PRODUCTS

For nearly a century, the Mossberg brand has been synonymous with providing shooters with safe, reliable firearms — at a price few others can match. Now, the Mossberg tradition of “more gun for the money” has been expanded to include high-quality, outdoor products. Under license from Mossberg, you’ll find a number of hunting, shooting and outdoor products — scrutinized by us, and endorsed with the Mossberg brand. Check for them at your local retailer or visit our website for a current list of licensed products.

CUTLERY & FLASHLIGHTS

Based on designs by Meyerco, you'll find quality cutlery for hunting and personal use along with a selection of tactical-style flashlights. For more information on retail locations, call 214.467.8949

FIREARMS CLEANING SWABS

Offered by Solon Manufacturing Company, these disposable foam-covered swabs are the perfect way to keep your firearm looking its best, and ready for action. For more information on retail locations or to order direct, call 800.341.6640

Stocks, Rails/Scope Bases, Magazines & Accessories

A full range of replacement parts and accessories is available to improve your hunting and shooting experience. Look for official Mossberg replacement parts and accessories at select retailers.

For more information on additional accessories products, see pages C34 and C35, or visit our web store at www.Mossberg.com.
