# Evolution of America's Best Shotgun:

The new Model 887™ Nitro Magnum - born out of The Remington Arms Company's long history of gunmaking expertise and an unmatched pump-gun legacy. Over the course of 100+ years, we know a thing or two about pump-action shotguns:

In 1908, Remington® introduces the first pump action shotgun - Model 10™

In 1950, Remington® introduces the venerable Model 870™ WINGMASTER®

The Model 870™ WINGMASTER® is the most popular, dependable, and revered pump shotgun in America - with almost 10 million 870™'s produced to date.

In 2009, Remington® makes history once again by introducing the revolutionary Model 887™ Nitro Magnum

As technology advances, so has the Remington® pump-action shotgun.

## The New All-Weather Warrior!

Remington.

Remington® **M887**<sup>™</sup> NITROMAG

# Model 887™ Product Highlights:

- Builds on the strength, dependability, and shooting performance of the Model 870™
- Adds the toughness of an all-weather shotgun with the addition of ArmorLokt™
  - Super-Strength Polymer Overmold - ArmorLokt™ - provides a rust-proof vault for the barrel and receiver
    - › Superior corrosion and abrasion resistance
    - › Rib integrated into barrel mold
- Awesome balance and natural pointing characteristics
- Twin steel action bars ensure smooth, positive chambering and ejection for the long haul
- 28" cold hammer forged barrel with solid rib
- Handles 12-gauge 2¾", 3", 3½" loads interchangeably
- New SuperCell™ recoil pad greatly diminishes felt recoil up to 54%
- Armor tough synthetic stock and fore-end are ergonomically contoured to offer a positive grip and comfortable handling
- Weighs 7¾ lbs, which is 1/8 lb. less than comparable Model 870™
- Hi-Viz® Fiber-Optic with front sight
- Built-in swing swivel studs
- Dual locking lugs on rotating bolt
  - Twice the lock-up strength
- Visit [www.remington.com/M887](http://www.remington.com/M887) for more information

**It's the Gold Standard in Black Armor!**

*The most durable & reliable pump shotgun ever!*

Remington®

NITROMAG™

*Remington.*

Remington®  
**ARMORLOKT**  
TECHNOLOGY

All exterior metal surfaces of the Model 887™ are locked in a vault of polymer armor that is impervious to moisture and highly resistant to abuse. That means with ArmorLokt™ construction you will not have any rust on external surfaces - ever!

- ArmorLokt™ is a proprietary polymer coating of armor available only from Remington®
- ArmorLokt™ forms an impenetrable shell of Armor - tough protection against harshest elements.
- Receiver and barrel are encased in ArmorLokt™ for all weather protection
  - Barrel: The barrel is cold hammer forged from 4140 steel - then coated with ArmorLokt™ via an injection molding process
    - › ArmorLokt™ polymer forms the barrel rib for consistent rib alignment
    - › ArmorLokt™ on barrel helps to rapidly dissipate heat
  - Receiver: Skeletonized steel receiver frame is also infused with ArmorLokt™ material
- Fore-end - Butt-stock - Magazine cap and trigger assembly round out the ArmorLokt™ construction of the M887™
- ArmorLokt™ surface withstands everything from run ins with barbed wire to abrasions from laying in the bottom of your Jon boat
- The ArmorLokt™ coating gives the shotgun a tough and rugged look and feel that makes an aggressive statement

ArmorLokt™ - A TOUGH AS NAILS Defense Against The Elements!

# Model 887™ Construction Process:

## Receiver Design Characteristics

- Receiver manufactured from steel
- ArmorLokt™ molded to receiver
- Solid steel barrel support bears load of recoil
- Magazine tube threaded into receiver
- Spring loaded ejector makes 2¾", 3", or 3½" shell ejection easy

## Trigger Plate Assembly (TPA) Design Characteristics

- Trigger Plate Assembly molded from ArmorLokt™
- Quickly and easily drops out for quick cleaning
- UNIQUE TPA assembly - contains both shell latches
  - Shell latches NOT staked into receiver walls
- New carrier flexi-tab design

## Barrel Design Characteristics

- Barrel manufactured from solid 4140 steel
- ArmorLokt™ molded to barrel
- Dual bolt locking lug recesses milled into barrel tang (twice the "lock-up" strength)
- Standard .727" bore (12 gauge) with Rem™ Choke

# Product Configurations

- **Model 887™ Nitro Magnum Synthetic**

- 12/28" barrel with solid rib
- All black ArmorLokt™
- Modified Rem™ Choke
- Hi-Viz® sights
- All purpose hunting shotgun - 2¾", 3", & 3½" capable

**MODEL 887™ NITRO MAG**  
Available in: 12 gauge (2¾", 3" and 3½")

**NEW**

- **Model 887™ Nitro Magnum Waterfowl**

- 12/28" barrel with solid rib
- ArmorLokt™ Realtree® Advantage MAX-4 HD™ Camo
- Extended over decoys Rem™ Choke
- Hi-Viz® sights
- Hardcore "Waterfowl Widowmaker" - 2¾", 3", & 3½" capable

**MODEL 887™ NITRO MAG WATERFOWL**  
Available in: 12 gauge (2¾", 3" and 3½")

**NEW**

# New SuperCell™ Recoil Reduction:

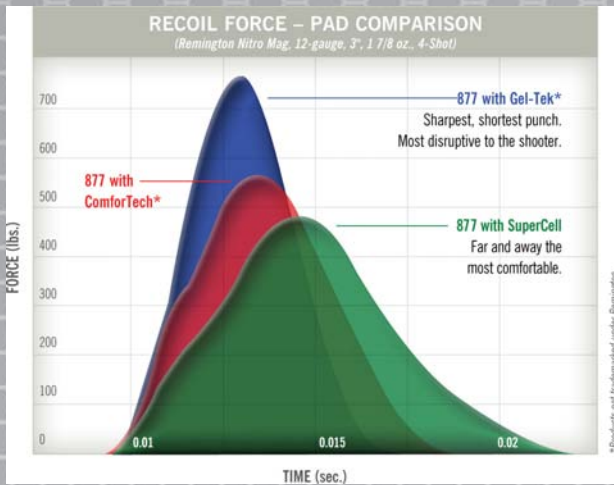

So Effective, Our Pump Gun beats their Autos!

The revolutionary Remington SuperCell™ Recoil Pad produces 54% less recoil than competing autoloaders with their factory pads.

- Absorbs force more efficiently than any pad in the world
- Rearward force of your gun is reduced from a kick to a gentle push and muzzle travel is diminished, resulting in the softest shooting experience possible
- A complex matrix of millions of SuperCells instantly soak up and redistribute energy
- Advanced polymer construction of the SuperCells allows them to harness and release energy over a longer period
- Extremely lightweight and tough
- Enhanced with a smooth surface for rapid gun mounting

## Model 887™ with SuperCell™ vs. Model 887™ with competitors' pads

"Felt recoil" is peak force vs. the amount of time that force is applied to the shoulder. By spreading force over a longer period than any other pad, SuperCell™ is proven most effective at reducing felt recoil. We fitted the competitors' pads to our Model 887™ - SuperCell dominated.

## Our Pump Beats Their Semi-Autos

By distributing force over a longer time period, SuperCell™ helped our Model 887™ produce up to 54% less recoil than a competitor's autoloading shotgun with factory pad. The Model 11-87™ with SuperCell™ was the softest shooting of all shotguns tested.

# Competitive Review

## M887™

vs.

## Benelli® NOVA

- **BARREL:** ArmorLokt™ polymer on barrel - integral rib
  - **WEIGHT:** Only 7<sup>3</sup>/<sub>8</sub> lbs
  - **STOCK:** Receiver and stock two distinct pieces - replaceable stock
  - **RECOIL:** SuperCell™ recoil pad reduces recoil by UP TO 54%
  - **SIGHTS:** Hi-Viz® interchangeable
  - **SUGGESTED RETAIL:** \$399
  - **STANDARD FEATURES:** ALL above features are standard on the Model 887™
- **BARREL:** No coating on barrel or rib
  - **WEIGHT:** 8 lbs
  - **STOCK:** Receiver and stock one piece - non-replaceable
  - **RECOIL:** Hard rubber recoil pad virtually NO recoil reduction
  - **SIGHTS:** Fixed "Red Bar"
  - **SUGGESTED RETAIL:** \$409
  - **STANDARD FEATURES:** Upgraded features only available on SuperNOVA for \$499

## M887™

vs.

## Mossberg® 835®

- **BARREL:** ArmorLokt™ polymer on barrel - integral rib
  - **WEIGHT:** Only 7<sup>3</sup>/<sub>8</sub> lbs
  - **BOLT:** Rotating lock up with dual locking lugs - twice as strong
  - **RECEIVER:** Steel receiver with ArmorLokt™ polymer overmold
  - **RECOIL:** SuperCell™ recoil pad reduces recoil by UP TO 54%
  - **SIGHTS:** Hi-Viz® interchangeable
  - **SUGGESTED RETAIL:** \$399
  - **STANDARD FEATURES:** ALL above features are standard on the Model 887™
- **BARREL:** No coating on barrel or rib
  - **WEIGHT:** 7.75 lbs
  - **BOLT:** Two piece - single locking lug
  - **RECEIVER:** Cast aluminum receiver (painted black)
  - **RECOIL:** Hard rubber recoil pad with virtually NO recoil reduction
  - **SIGHTS:** Standard bead sights
  - **SUGGESTED RETAIL:** \$399
  - **STANDARD FEATURES:** Upgraded features only available on certain Camo Waterfowl/Turkey guns \$499 suggested retail
