ZERO KICK SHOOTING REST ELIMINATES UP TO 90% FELT RECOIL

NEW

THE LATEST RECOIL-REDUCING REST FROM SHOOTERS RIDGE®

The full force of felt recoil at the range just became optional. The new Zero Kick Shooting Rest has the ability to reduce or eliminate felt recoil. Simply slip your magnum rifle into the shoulder strap, secure up to two weight plates (or use shot or sand bags) and dial it

in virtually recoil free. For lighter recoil guns, or to get the true feel of the recoil pad against your

shoulder, just take the gun out of the shoulder strap and squeeze off an accurate shot. It's that easy with the Zero Kick Shooting Rest.

SHOOTING RESTS

DELUXE RIFLE REST

Shooters Ridge® is proud to introduce the new and improved version of our popular Deluxe Rifle Rest, which now features the Recoil Reducing Weight Tray for even less felt recoil. Stack bags of shot or sand (up to 50 lbs.) on this tray to virtually eliminate recoil. This rest allows you to make micro windage and elevation adjustments for quick target acquisition and precise shots. Set up and take down this rest with ease, and without the use of tools. Next time you sight-in, skip the recoil.
