

Desert Dune is a new Vinci shotgun with an unmistakable design, capable of blending in against any background and amazing the user with its advanced technology. The Vinci is the first and only semiautomatic shotgun that can be stripped down without the use of tools even in the field, thanks to an innovative locking system. Its three main parts – stock, barrel and receiver – can be detached in just a few seconds. The stock features a completely new grip and checkering design and incorporates Benelli's new ComforTech Plus technology. Recoil, vibration and uplift are reduced to a minimum. The shotgun is also fully adaptable thanks to a choice of combs and anatomic recoil pads. Both stock and fore-end feature "Comfort Touch" checkering that not only enhances the looks of the shotgun but is also uniquely pleasant to the touch.

Technical Sheet

Mechanics	Vinci Inertia System
Gauge	12
Chamber	76 magnum
Stock and fore-end	Technopolymer
Stock length from trigger / deviation	365 mm / LH and RH adjustments
Drop at heel	60 mm, adjustable to 45-50-55
Drop at comb	39 mm

Chokes	Criochokes * - ** - *** - **** - cyl.
Front sight	Interchangeable fluorescent red high-sight
Safety	Front transverse with red ready to shoot signal
Trigger guard	Ergonomic technopolymer
Stock	Technopolymer with Comfortech Plus
Comb	Interchangeable anatomic elastomer
Recoil pad	Interchangeable anatomic "Air Cell" polyurethane
Magazine	3 rounds
Weight	approx. 3.150 g*

* with 65 cm barrel and Comfortech Plus stock

Technology

Free Floating Barrel

Benelli's Free-Floating Barrel system (based on the same principle applied to high performance Bolt Action rifles) delivers unrivalled shooting accuracy.

Vinci Inertia System

Perfect distribution of forces, impeccable balance and minimal muzzle climb on firing.

ComforTech PLUS

Optimises Benelli's revolutionary and acclaimed ComforTech system by further reducing recoil and muzzle climb. Vibration and uplift are reduced to a minimum.
