Remington R-25 Review

When I was a gunsmith, an "autoloading Remington in .308" meant an M740 or one of its descendants.

Load	Accuracy Results		
	Bullet Weight (gr.)	Avg. Velocity (fps)	Average Group (in.)
Federal Gold Medal Match	168	2,611	.80
Hornady BTHP Match	168	2,679	.75
Black Hills Match HP	168	2,597	.90
Remington MatchKing BTHP	168	2,629	.75

Velocity recorded 10 feet from the muzzle. Groups were the average of three five-shot groups at 100 yards from a Caldwell rest.

*Cases marked with an asterisk were formed from .30-06 brass. Norma cases were once-fired factory ammo. WARNING The loads shown here are safe only in the guns for which they were developed.
